Flowstore Systems Ltd Environmental Policy Statement

Flowstore Ltd. will implement the principles and objectives defined below, as part of our responsible approach to the care of the environment and seeks the support of all staff, contractors and suppliers to contribute to achieving this goal. Flowstore is committed to minimising our carbon footprint through developing an ongoing environmental programme to:

- * Place environmental factors as part of significant decisions on existing operations and future plans.
- * Develop policy and strategies taking full account of any environmental implications
- * Promote and encourage the use of sustainable forms of travel and transport by staff and associates.
- * Establish effective waste management and encourage reuse and recycling best practice.
- * Establish an energy management system to reduce and conserve energy
- * Work with suppliers and contractors to use where possible sustainable and recycled materials
- * Increase the awareness of environmental responsibilities amongst staff and contractors.
- * Meet the requirements of current and future relevant legislation, statutory obligations and codes of practice;
- * Aim for continual improvement in environmental performance through an appropriate environmental management system

All employees on their part are encouraged to contribute actively towards achieving a work environment which enforces recycling and best use of energy conservation. Our Environmental Policy will be reviewed annually to monitor its effectiveness and to ensure that it reflects changing needs and circumstances.

This statement is read in conjunction with the responsibilities, arrangements, procedures and guidance that together form part of Section U of the health and safety policy for Flowstore Systems Ltd.

Signed:.......... Date:.....19 OCT 2011.....

Simon Dennis, Managing Director, Flowstore Systems Ltd
